

Copernicus Publications Reference Types

General Remarks

Works cited in my manuscript should be accepted for publication or published already. These references have to be listed **alphabetically** at the end of the manuscript under the **first author's name**. Works "submitted to", "in preparation", "in review", or only available as preprint, should also be included in the reference list. Please do not use bold or italic writing in short citations in the text as well as in the reference list.

Please supply the full author list with last name followed by initials. After the list of authors the complete reference title has to be named. Thereby, journal names are abbreviated according to the ISI Journal Title Abbreviations Index, followed by the volume number, the complete page numbers (first and last page) and the publication year. If the abbreviation of a journal name is not known, please use the full title. In addition to journal articles, all reference types are summarized in the following chapters.

If there is more than one work by the **same first author** his/her papers are listed in the order: (1) single author papers (first author), followed by (2) co-author papers (first author and second author), and finally (3) team papers (first author et al.). Within these three categories the respective papers are then listed as follows:

- **Single author papers:** chronologically, beginning with the oldest. If there is more than one paper in the same year a letter (a, b, c) is added to the year both in the short citation in the text as well as in the reference list.
- **Co-author papers:** first alphabetically according to the second author's last name, and then within each set of co-authors chronologically. If there is more than one paper in the same year per set of co-authors a letter (a, b, c) is added to the year both in the short citation in the text as well as in the reference list.
- **Team papers:** first chronologically (beginning with the oldest), independent of the team author names, then inside one year alphabetically according to the second (third, etc.) author. If there is more than one paper in the same year for a first author (independent of the team) a letter (a, b, c) is added to the year both in the short citation in the text as well as in the reference list.

In terms of short citations in the text, the ordering can be by relevance, as well as chronologically or alphabetically, depending on author's preference.

Examples for Reference Sorting

In general, short citations in the text can be displayed as "[...] Smith (2009) [...]", or "[...] (Smith, 2009) [...]".

Reference List	Short Citation
Single author: chronologically	
Smith, P.: ..., 2009.	Smith, 2009
Smith, P.: ..., 2010a.	Smith, 2010a
Smith, P.: ..., 2010b.	Smith, 2010b
Co-authors: alphabetically before chronologically	
Smith, P. and Brown, P.: ..., 2010.	Smith and Brown, 2010
Smith, P. and Carter, T.: ..., 2007.	Smith and Carter, 2007
Smith, P. and Carter, T.: ..., 2010a.	Smith and Carter, 2010a
Smith, P. and Carter, T.: ..., 2010b.	Smith and Carter, 2010b
Smith, P. and Thomson, A.: ..., 2005.	Smith and Thomson, 2005
Team: chronologically before alphabetically	
Smith, P., Thomson, A., and Carter, T.: ..., 2006.	Smith et al., 2006
Smith, P., Carter, T., and Hanson, M. B.: ..., 2008a.	Smith et al., 2008a
