Figure (a) shows a satellite image of a mountainous region with a field site marked by a triangle. The inset map indicates the location of China.

Figure (b) is a detailed map of the field site with various markers and lines. The markers include:
- AWS (yellow star)
- 25 m borehole site (red circle)
- Deep borehole site (blue plus)
- Stake (black triangle)
- Center flow line (green dashed line)
- Contour (dotted line)

The map also highlights three sites labeled as site 1, site 2, and site 3. The map includes a scale for distance in kilometers.
